These books are a nice early presentation of wood puzzles and their construction, including the *Missing T* ("Cut-Up T"), *Tangram* ("Cut-Up Square"), a version of *Iribako* ("Bewitching Cubes"), *Fifteen* ("Shuffle Puzzle 1"), *Dad's Puzzler* ("Shuffle Puzzle 2"), a version of the *Checkerboard Puzzle* ("Cut-Up Checkerboard"), *Towers Of Hanoi* ("Peg And Disc Puzzle"), *Wood Knot* ("Three Piece Cross"), simple *6-Piece Burrs*, and a number of other burrs. Both books have been printed many times (when *Wonders in Wood* was published, *Puzzles in Wood* was in its eighth printing); here are 2007 editions:
