(Purpleheart / Maple / Lacewood, 13 pieces, 2.25 by 3 by 3.75 inches)

Here is what Eric Fuller says:

"This 13 piece interlocking burr puzzle was published in the magazine *Soumen Kuvalehti* number 11 in 1926. There are 2 possible solutions, both very similar. Despite its not being a high level puzzle, the solution is surprisingly tricky, probably because of its unusual shape. Ishino Keiichiro posted it on his site and Matti Linkola discovered the magazine."
