

# Circus Puzzler

**a.k.a. *Color Matcher***

*Circa 1980's?*

(2.9" by 1.5" high plastic box and seven hexagonal plastic pieces)

Arrange the seven hexagons so that adjacent edges match. Like the *Circus Seven* puzzle, but a smaller size puzzle with different color patterns. *Jaap's Page* shows a number of other color variations for which this puzzle was made.
