

HiHo

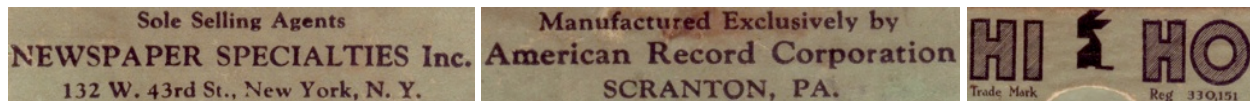

(same pieces as the *Richter No. 10 Cross Puzzle*)

Hi Ho Puzzle, 1932.

(2.75 by 2.5 by 5/8 inch cardboard box, 7 plastic pieces, and directions)

The pieces are made from *Bakelite* (an old type of plastic developed in the early 1900's). Below are the top and bottom edges of the box and one of the sides (the other side is the same). The directions show a sitting dog and suggest that many other patterns can be made.

Instructions

This is a facsimile reproduction of the seven blocks which makes up the HI-HO set as it appears when it is placed in the box.

This is a silhouette picture similar to those which will appear as a feature in newspapers.

HI-HO consists of a set of seven blocks. By moving these blocks around you can make hundreds of Silhouette Problems and Puzzles. The seven blocks are always used in solving HI-HO Silhouette Problems as illustrated.

© 1932 W. & M.

HI-HO is a fascinating game every one can play and enjoy. Original and new it adds interest to your social activities.

A pastime for young and old. Nothing to learn. Easy to play. Hundreds of other HI-HO silhouette problems can be made with these intriguing seven mystic blocks.

For additional silhouettes and games apply to your local dealer or
