

Master Kilominx

Made by mf8, sold by Mefferts 2012.

(plastic, 3.4 inches between opposite faces, with storage bag 7.4" x 5.75")

Rotations through the center work like the standard *Kilominx* (where the puzzle stretches a bit); there is an additional layer on all faces that can rotate.

On opposite sides the colors are:

white opposite gray

green opposite light green

blue opposite light blue

pink opposite purple

light yellow opposite yellow
