

Rubik 1x2x13

a.k.a. *Unlucky Twist*

Designed based on idea of Ola Jansson; custom made by Oskar Van Deventer, 2013.

(plastic, made with a 3D printer, 10.25" x 1.5" x 3/4")

A larger version of the mass produced Rubik 1x2x9. Here are photos of successive manipulations, where the third photo is a close up of the center of the second one to see the mechanics of how the telescopic layers build out from the middle cube:
