

Rubik 3x3x5 Cross

Designed by Aleh, Tont, & Eveniy, purchased from Mefferts 2013.

(plastic 3.75"; red across from orange, blue across from green, yellow across from white)

One of a number of generalizations sold of *Rubik 3x3x5*. Like the standard *3x3x5* shape and the little brother of this puzzle, the *Rubik 3x3x5 X*, the shape of the puzzle does not change as it is manipulated.
