

Holey Skewb

a.k.a. Void Skewb

*Designed by Tony Fisher, purchased from Mefferts 2010.
(plastic, 2.2 inches)*

In the theme of the *Rubik 3x3x3 Void Cube*, same as the *Skewb* but without the centers, so that one can look through the center of the cube along any of the three axes (i.e., a square bar can be passed through the cube in any of the three directions).
