INSTRUCTIONS:

When the jumbled letters are properly rearranged they will form words both across and down as in a regular crossword puzzle.

However there are no hints as to what the words are or where they go. You must choose the possible word combinations from among all the jumbled letters and move them wherever you think they belong.

The two red chips and the vacant space indicate spaces between words. These also must be properly placed in order to complete the puzzle.

For solution send self-addressed and stamped envelope to Dept. P, Plastrix, Brooklyn 2, N. Y.

ONE SOLUTION ONLY!

The First Word Down is "PILGRIM"

HINT

The vacant space and the two red chips go here.
