

Get My Sheep

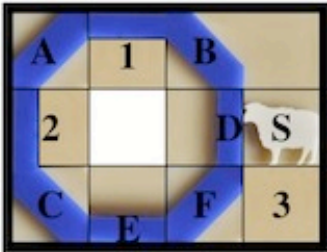

Designed and made by D. Namdarian 2013; sleeve added by J. Storer.

(made from 1/8" thick laser cut plastic, board 2 layers, pieces 2 layers, 4.3" x 5.5" x 3/8")

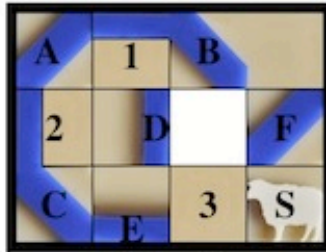

Looks like the classic *Get My Goat* puzzle, but the pieces are composed of two layers. The puzzle comes with a solution sheet showing a 70 move solution. The following page shows every fifth move of a 69 move solution that starts with the same first 19 moves.
