

Peg Puzzle

*Lubbers & Bell Mfg. Co., Clinton, Iowa;
top is 1922 First Edition, bottom is 1929 Fifth Edition.*

(cardboard box 6.7" square by 1.2" thick, booklet, wood board, and wood pegs)

Starting with a peg in every hole but the center, hop the pieces over each other (like checkers) to remove them so that all that remains is a single peg in the center. The booklet that comes with the puzzles gives additional problems based on different starting positions.
