

Soap

Designed by Ed Pegg Jr.;
this puzzle made by J. A. Storer 2007
from a 1961 Adams Co. Dad's Puzzle and two plexiglass L-shaped pieces.
(cardboard sleeve, metal tray, 6 plastic / plexiglass pieces, 3.75 x 3 x 5/16 inches)

From the starting position shown below, move the bottom 1x2 piece to the top (i.e., float the soap). *Baxter's page* on Pegg puzzles lets you play this game and indicates a minimal solution of 43 rectilinear moves.
