

Train Puzzle

Designed and made by D. Namdarian 2014; sleeve added by J. Storer.

(made from 1/8" thick laser cut plastic, board 2 layers, pieces 1 layer, 3.6" x 5.6" x 1/4")

A puzzle with many pieces and much white space. The solution sheet that comes with the puzzle shows a 105 basic steps, many of which are composed of several rectilinear moves where some require two pieces to slide together; here a 12 of those positions:
